Dear Gelf,

Its been years since we connected, for too long I have abandoned you & only looked after everyone else's needs & wants.

I apologise for not prioritising your well being, for exhausting my energy into people pleasing.

Tonight I return back to you & promise to take care of you just the way I care for the world & even people who I know are toxic for me.

I am grateful for mom, dad, Shumi, Sanghamitra, Shyali & Shona.
